Source R&D Launches Warpia Wireless USB Adapter Set for PC to HDTV Displays and Projectors

Wireless Display Adapter Set Based on Wisair's WSR601 Wireless USB Single-Chip

San Jose and Campbell, Calif., May 4, 2009 – Source R&D, a premier technology distributor, and Wisair, a leading provider of single-chip based Wireless USB solutions, today announced the availability of a Wireless USB Display Adapter Set that wirelessly transfers PC content to TVs, monitors and projectors. The Wireless USB Display Adapter, to be distributed under the [Warpia](#) brand, allows users to view video, Internet content and pictures from their computer on monitors and HDTV displays without the hassle of extra cables.

The Warpia Wireless USB Adapter Set features VGA and HDMI connectivity options and supports up to 1400x1050 screen resolution. It provides a wireless range of up to 30 feet (in the same room). The set is expected to be available in retail stores in May at an MSRP of \$129-\$149 USD.

“Innovative Wireless USB products and accessories, such as the Display Adapter offered by Source R&D, will accelerate the adoption of Wireless USB products by consumers,” said Jeff Ravencraft, USB-IF chairman and president. “We are pleased to see the continuing momentum in the market for Wireless USB hosts and devices.”

Mike Walsh, Source R&D principal and president, noted "We've been seeing strong customer demand to be able to view PC content on displays and projectors without any video cables, so we are very excited about the potential of this new offering. We have examined several technological solutions, and Wisair's solution undoubtedly provided the best range and performance at the most attractive price point."

"The Wireless USB Display Adapter Set is the most innovative, low cost and high performance solution in the market today," noted David Yaish, Wisair president and CEO. "We are pleased to cooperate with Source R&D, and will continue offering high performance solutions to enable the introduction of affordable, best-in-class Wireless USB products."

The Warpia Wireless USB Adapter Set was launched last week at the Retail Vision event in Florida, April 27-30.

About Source R&D

Source R&D, Inc. is one of the world's premier technology distributors and a leading technology sales, marketing and logistics company. Specializing in emerging technologies and innovations, Source R&D serves as a vital link in the technology value chain. Source R&D, Inc. creates sales and profitability opportunities for OEMs, ODMs, vendors and resellers through unique marketing programs, logistics services, backend support, financial services and product aggregation and distribution.
